ADA Compliance Guideline
Mirrors: Bottom edge of reflective surface, cannot be mounted at a height higher than 40'' above finished floor. If mirrors are to be used by both ambulatory and wheelchair users, mirrors must be at least 74'' (1880mm) high at their highest edge. A single full-length mirror can accommodate all people including children.

Operations: Controls and other operating mechanisms shall be operable with one hand and shall not require tight grasping or twisting of the wrist. The force required to activate controls shall not point of an item can be no higher than 40'' above finished floor.

Grab Bars: Diameter of gripping surface shall be 1-1/4'' to 1-1/2'' (32mm to 38mm). The space between wall and grab bar (offset) shall be no greater than 1-1/2'' (38mm). Recommend 33'' to 36'' centerline above finished floor. Verify if a non-slip (peened) grip is required per local codes.

Toilet Paper Dispensers: Any dispenser that needs to comply with ADA code cannot have any type of controlled delivery. The minimum mounting height above finished floor is 19'' to the center of the roll.

Medicine Cabinets: Must be located with a usable shelf no higher than 44'' (1117mm) above the finished floor.

Shower Seats: Seating area of the shower seat should be a height between 17'' to 19'' above the finished floor.

Tub Seats: Seats should be mounted to wall surface securely and shall not slip during use.

Code 422A-70: Stainless steel type 304, Semi Recessed 4"
Code 422C-70: Stainless steel type 304, Surface Mounted
Code 427-70: Stainless steel type 304, Recessed 4"

Site Location: Stainless steel combination dispenser / waste receptacle can be mounted into any wall configuration requiring a minimum of 4" depth any wall configuration requiring a minimum of 4" depth.

Touch Free: Large detection zone senses hand when placed in a natural position under dispenser to deliver a towel length range of 6-9". Towel delivery is quiet and uniform. Hands free dispenser reduces paper flow and provides maximum hygiene. Operates with 4 "D" size alkaline batteries or plug in AC adaptor. 4 alkaline batteries have been independently tested and found to provide 35,000 hand dries. Designed to dispense jumbo roll towels max. 8" diameter (4" reserve roll). Cabinet door hinged with full length stainless piano hinge and is secured with keyed tumbler lock. Takes 24"x36" garbage bag and a 1 1/2" paper core.

Materials: All stainless welded construction with locking removable waste bin. Semi recessed design provides large capacity receptacle with minimum space. Code 427 provides extra large waste capacity. Waste receptacle is completely removable for convenient maintenance. Comes with standard bag holder apparatus. Recessed wall body and waste container are 22gauge stainless steel type 304 No. 4 brushed finish.

Capacity: Code 422-70A: 11 gal. (50ltr.), shipping weight: 50lbs. (22.6 kg.), Code 422-70C: 11 gal. (50ltr.), shipping weight: 58 lbs. (26.3 kg.), Code 427-70: 15 gal. (68ltr.), shipping weight: 59lbs. (26.6kg.)

Disabled Grab Bar

SN-GB-L1632

Specifications

Materials: #304 Peened Stainless Steel
Diameter: 1-1/4". Satin finish
Special order Grab Bars, Stainless Steel
Code R1003SP 16x24":1-1/4" dia. Stainless steel, peened finish
Code L1003SP 16x24":1-1/4" dia. Stainless steel, peened finish
Code R1003NP 16x24":1-1/2" dia. Stainless steel, peened finish
Code L1003NP 16x24":1-1/2" dia. Stainless steel, peened finish

The Frost SP and NP series stock grab bars are of an all-stainless-steel construction.
The brushed and peened finish make this an attractive, cost-effective product to specify for any installation.

Stamped flange is 12-gauge stainless steel with a full 360-degree bead weld to the 18 gauge stainless steel tubing.
Features concealed mounting detailing as shown in the illustration above.

Barrier Free Access:
The Frost SP grab bar series comply with handicap codes requiring 1-1/4" bar diameter and
wall clearance of 1-1/2".
Barrier free access specifications may vary depending on jurisdiction.

NP style grab bars have 1-1/2" bar diameter and wall clearance of 1-1/2".
Description and specifications applicable on date issued. We reserve the right to make improvements or changes without notice.
R1003 16x24 L1003 16x24

Safety Warning:

All grab bars must be installed by qualified trades persons. Installers must consult and comply with local building codes. Mounting hardware and other systems to be determined by contractor and installer pending specific structure, design, and conditions. All installations must be fully inspected and approved by property owners and maintenance personnel prior to product being put into use. Failure to comply to proper installation procedure will void warranty and may result in malfunctioning or injury.

Sanital®

Flip up/Swing Safety Rail Grab Bars

FGB-3011S   Satin finish
FGB-3011SW   White powder coated

#304 Peened Stainless Steel, heavy duty.
Multi-Click System
Diameter of Tube: 32mm (1-1/4'' OD).
Mounting Plate: 4" x 12"(102x305mm).
Length: 30" x 11" (762x279mm).
FGB-296   Satin finish

Type heavy duty #304 Peened Stainless Steel with
#18 ga. Diameter of Tube: 32mm (1-1/4'' OD).
All bends formed by automatic mandrel bending
process which maintains a uniform bar diameter
around bends.
Length: (29" x 6")(737x152mm)
FGB-6016   Satin finish

Heavy duty #304 stainless steel with satin finish with 18
ga. (1.2mm) wall thickness and 1–1/4" (32mm) outside
diameter. Back plate shall be 3/16" (5mm) thick
stainless steel, equipped with screw holes for
attachment to wall. Swing-up grab bar shall be manually
raised for approach or departure and lowered to horizontal
position for support counterweighted design shall prevent
grab bar from falling back down to the full horizontal position
once grab bar is raised to the full upright (vertical) position.
